

Anteralign LS Plate

MR Implant Card

The Patient Implant Card is intended for US patients implanted with an Anteralign LS Plate device/construct. It allows patients to identify themselves as having such device and to be able to inform their healthcare providers of its MRI safety status. It is recommended that the patient always carry the card with them.

Additional copies of the Patient Implant Card can be obtained at <https://mdt-eifu.info/>.

Instructions for the Healthcare Centre or Doctor

1. Print the Patient Implant Card true to size (100% scale).
2. Cut out the Patient Implant Card along the solid line.
3. Fold along the dashed line.
4. Fill in Patient Name, Date of Surgery and Healthcare Centre or Doctor.
5. Fill in the back of the Patient Implant Card using information from the product label.
6. Provide the Patient Implant Card to the patient.
7. Recommend that the patient always carry the Patient Implant Card with them.

MR Implant Card

   

This person is implanted with an Anteralign LS Plate Implant and can safely undergo an MR exam only under very specific conditions. Scanning under different conditions may result in injury. Full MRI safety information is available in the MRI Safety Information section of the Instructions For Use (IFU), which can be obtained from <https://mdt-eifu.info/>.
